The Moon Society is dedicated to the Moon:
not merely looking at it, but going back to it!

Members of the Moon Society are planning to develop the Moon, and then planning to go themselves. And there's still time for you to get involved in humanity's next great adventure. Join us on our trip to the stars!

The Moon Society is a non-profit educational and scientific foundation formed to further scientific study and development of the Moon. Our goals include:

- Creating a space-faring civilization which will establish communities on the Moon.
- Promoting interest in the exploration, research, development, and habitation of the Moon.
- Stimulating and encouraging the development and use of space technologies on Earth and in space.
- Promoting collaboration between various societies and groups interested in developing and utilizing the Moon.
- Encouraging private enterprise and industrialization on the Moon.

The Moon Society grew out of the Artemis Project, an ongoing commercial venture to establish a colony on the Moon. More details on the Artemis Project are available at www.asi.org.

Your participation is easiest and most immediate when you join the Moon Society. If you're a watcher, a talker, or a doer, the Moon Society needs you, and you'll find what you're looking for in the Moon Society. Your membership includes:

- our monthly newsletter
- access to our huge storehouse of data and scientific studies
- close contact with many other like-minded people
- a full-color Artemis Project poster, suitable for framing
- suitable recognition in Moonbase Artemis, when it's constructed

Membership also makes a great gift. Visit us on the web at www.MoonSociety.org and then Join Us Today!

Yes! I want to help mankind return to the Moon—permanently!
